**DEED OF PUBLIC ACCESS CONSERVATION EASEMENT
AND AGREEMENT CONCERNING PUBLIC ACCESS EASEMENT RIGHTS**

This Deed of Public Access Conservation Easement and Agreement Concerning Access Rights (the "Public Access Easement") is granted on this 18th day of February, 2005, by **HEARST HOLDINGS, INC.**, a Delaware corporation ("Grantor"), to the **DEPARTMENT OF PARKS AND RECREATION, STATE OF CALIFORNIA** ("Grantee"), hereinafter collectively referred to as the "Parties."

RECITALS

A. Grantor is the sole owner in fee simple of certain real property consisting of approximately Eighty-One Thousand Seven Hundred Seventy-Seven (81,777) acres, located in San Luis Obispo County, California, described in "Exhibit A" attached hereto and incorporated herein by this reference (the "Ranch").

B. Grantor desires to grant to Grantee this Public Access Easement over the area described in "Exhibit B" attached hereto and incorporated herein by this reference (the "Public Access Easement Area") and depicted on "Exhibit C" incorporated herein by this reference (the "Public Access Easement Area Map"), to allow the development and management of a continuous segment of the California Coastal Trail along the coast of the Ranch (the "Trail" or "California Coastal Trail"), and for public access over the Trail and certain other trails connected thereto. Grantee desires to accept the Public Access Easement from Grantor and to develop the Trail and manage public uses thereof in accordance with the terms and provisions of this Public Access Easement. The Public Access Easement Area consists of four distinct areas: Pico Cove Conservation Area, Old San Simeon Village Conservation Area, San Simeon Point Conservation Area and Ragged Point Conservation Area, each of which is more particularly described in Exhibit "B" and depicted on Exhibit "C".

C. Grantee is a "qualified organization" as defined by Section 170(h)(3) of the Internal Revenue Code and is eligible to hold this Public Access Easement. By approval of the Public Works Board, State of California, at its meeting conducted on November 5 and 10, 2004, Grantee is authorized to acquire this Public Access Easement and accept the responsibility of monitoring and enforcing the terms of this Public Access Easement.

D. Affording public access to the Public Access Easement Area is of great importance to the Grantee, the people of the County of San Luis Obispo and the State of California, and visitors from across the United States of America. The public access granted will provide opportunities for the general public to view and be surrounded by highly scenic areas of the California coastline, including tens of thousands of acres that will be conserved as a result of the related transactions referenced in Recital E, below ("Conservation Values").

E. This Public Access Easement is being granted in connection with other conservation transactions collectively affecting the entirety of the Ranch, including the grant to the California Department of Transportation of that certain Deed of Scenic Conservation Easement and Agreement Concerning Easement Rights recorded in the Official Records of San Luis Obispo County, California, as Document No. 2005013397 (the "Caltrans Scenic Protection Easement - Retained Lands"), and a grant to the American Land Conservancy of that certain Grant Deed of Conservation Easement and Agreement Concerning Easement Rights recorded in the Official Records of San Luis Obispo County, California, as Document No. 2005013398 (the "Old San Simeon Village Conservation Easement").

PUBLIC ACCESS CONSERVATION EASEMENT

In consideration of the recitals set forth above, which are incorporated herein by reference, and of their mutual promises and covenants, and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Grantor hereby grants and conveys to Grantee, its permitted successors and assigns, and Grantee hereby accepts, pursuant to its authority under Public Resources Code Section 5005, a perpetual "conservation easement" as defined by Section 815.1 of the Conservation Easement Act of 1979 (California Civil Code 815 *et seq.*) to allow public access for non commercial passive recreational purposes over the Public Access Easement Area more particularly described in Exhibit "B" of the nature and character described in this Public Access Easement ("Public Access").

1. **Purpose.** The primary purpose of this Public Access Easement is to permit, in accordance with the terms and conditions of this Public Access Easement, permanent and perpetual Public Access within the Public Access Easement Area. The secondary purposes are to preserve the scenic beauty and natural qualities of the Public Access Easement Area while accommodating Public Access, to limit erosion caused by public use of the Public Access Easement Area, and to protect and maintain any private or public investment made in obtaining this Public Access Easement. In

addition, the Public Access Easement Area is conserved by a concurrent grant of property interests listed in Recital E, above.

2. Access Parameters and Plan Requirement. Grantee shall manage and control Public Access in accordance with the "Access Parameters" attached hereto as "Exhibit D" and incorporated herein by this reference. Prior to Grantee allowing Public Access or installing any Public Access improvements over or on any part of the Public Access Easement Area, Grantee shall have completed a Public Access plan consistent with the Access Parameters, following its normal public review processes for the development of such plan (the "Public Access Plan"). The Public Access Plan shall be subject to Grantor's approval based upon a determination that the Public Access Plan is consistent with the Access Parameters. The Public Access Plan, in the discretion of Grantee, may be completed and implemented in two phases. If phased, the first phase will be for the California Coastal Trail within the Public Access Easement Area and the second phase for the balance of Public Access authorized by this Public Access Easement. Prior to completion and implementation of the Public Access Plan, or a phase thereof, access to the Public Access Easement Area shall be at the sole discretion of Grantor.

3. Rights Retained by Grantor. Except as expressly restricted by the terms and conditions of this Public Access Easement, Grantor retains all ownership rights in the Public Access Easement Area and retains the right to perform any act not prohibited or limited by this Public Access Easement. Grantor's retained rights include, but are not limited to: (a) the right to sell, encumber, or otherwise transfer the Public Access Easement Area or portions thereof, to anyone Grantor chooses, subject to Grantee's rights under this Public Access Easement; (b) the right to defend against actions of eminent domain; (c) the right to continue the existing revocable permission for public access under Civil Code Section 813; and (d) the right to dedicate additional public access rights over the Public Access Easement Area; *provided*, that (i) such additional rights shall not conflict with any of Grantee's rights under this Public Access Easement; (ii) Grantee shall be notified in writing at least ninety (90) days in advance of any proposed new dedication of public access rights over any portion of the Public Access Easement Area, which notice shall include the proposed terms and conditions of the dedication; and (iii) no new public access rights shall result in Grantee's having to bear any additional obligation or cost under this Public Access Easement.

4. Prohibition of Mining. Exploration for, or the removal or extraction of any mineral or non-mineral substance by any surface or subsurface mining or extraction method conducted within the Public Access Easement Area is prohibited.

5. Responsibilities of Grantor and Grantee Not Affected. Other than as specified herein, this Public Access Easement is not intended to impose any legal or other responsibility on Grantee, or in any way to affect any existing obligation of the Grantor as owner of the Public Access Easement Area. Among other things, this shall apply to:

(a) Taxes. Grantor shall pay before delinquency all taxes, assessments, fees and charges of whatever description levied on or assessed against the Public Access Easement Area by competent authority; *provided*, Grantee shall pay before delinquency any tax or assessment on the Public Access Easement or improvements by Grantee authorized by this Public Access Easement.

(b) Upkeep and Maintenance. Grantee shall maintain and repair the Public Access trails and Public Access facilities authorized in the Public Access Plan. Upon request from Grantor, Grantee shall repair any damage to, and keep free of litter, the Public Access Easement Area, resulting from Public Access on the Public Access Easement Area. The Public Access Plan will include a maintenance and security component. Except as otherwise provided in this Public Access Easement, Grantee shall have no obligation for the upkeep or maintenance of the Public Access Easement Area unless Grantor and Grantee mutually agree on cooperative programs and cost sharing for specific projects.

(c) Liability and Indemnification. Grantee shall hold harmless, indemnify, and defend Grantor and its officers, directors, employees, contractors, legal representatives, agents, heirs, personal representatives, successors and assigns, and each of them (collectively "Grantor Indemnified Parties") from and against all claims arising from or in any way connected with any injury to or the death of any person, or physical damages to any property, resulting from any act, omission, condition, or other matter related to or occurring on or about the Public Access Easement Area in connection with the exercise of the rights of Public Access granted by this Public Access Easement, except to the extent caused by the gross negligence or willful misconduct of any of the Grantor Indemnified Parties.

(d) Insurance. Grantee shall maintain a comprehensive general liability policy insuring against bodily injury and property damage on the Public Access Easement Area in the amount of not less than five (5) million dollars (\$5,000,000), which amount shall be adjusted every five (5) years to reflect the percentage increase during the past five (5) years in the CPI; *provided*, Grantee may self insure to the extent reasonably approved by Grantor. The original Grantee (Department of Parks and Recreation, State of California) is pre-approved by Grantor as self insured. The "CPI" means the United States Department of Labor's Bureau of Labor Statistics = San Francisco-Oakland-San Jose Area Consumer Price Index for all Urban Consumers (CPI-U, all items) (1982-84=100), or the successor of such index. Grantor shall be named an additional insured on the policy. The liability insurance shall apply as primary insurance with respect to any other insurance or self-insurance programs afforded to Grantor. Grantee waives all rights of subrogation against Grantor and its agents, representatives, officers, directors and employees for recovery of damages to the extent these damages are covered by insurance maintained pursuant to this Public Access Easement. Grantee shall furnish Grantor with certificate(s) of insurance, executed by a duly authorized representative of each insurer, showing compliance with the insurance requirements set forth above. Such certificates shall provide for thirty (30) days written notice to Grantor prior to the cancellation or material change of any insurance referred to herein. Any failure of Grantor to demand such certificate or other evidence of full

compliance with these insurance requirements or failure of Grantor to identify a deficiency from evidence that is provided shall not be construed as a waiver of Grantee's obligation to maintain such insurance. The foregoing insurance requirements do not replace, waive, alter or limit the hold harmless or indemnification provisions of this Public Access Easement.

6. Forbearance No Waiver. Forbearance by the Grantee or Grantor to exercise its respective rights under this Public Access Easement shall not be construed to be a waiver by the Grantee or Grantor of such term or of any subsequent breach of the same or any other term of this Public Access Easement. No delay or omission in the exercise of any right or remedy by Grantor or Grantee shall impair such right or remedy or be construed as a waiver.

7. Grantee Transfer of Public Access Easement.

(a) Grantee may assign its interest, rights and obligations under this Public Access Easement only to an entity that is: (1) qualified to hold a conservation easement under Section 815.3 of the California Civil Code; (2) a "qualified organization" as defined in Section 170(h)(3) of the U.S. Internal Revenue Code, 26 U.S.C. 170(h)(3); (3) willing and financially able to assume all of the responsibilities imposed on Grantee under this Public Access Easement; and (4) willing to uphold the Conservation Purpose. In the event that Grantee decides to assign its interest, rights and obligations under this Public Access Easement, it shall first offer such assignment to American Land Conservancy, a California non-profit public benefit corporation ("ALC"); *provided*, that, at the time of such offer, ALC meets each of the foregoing four qualification criteria; *provided, further*, that, not later than ninety (90) days after Grantee provides written notice to ALC of its offer of assignment, ALC shall respond with written notice to Grantee as to ALC's willingness to accept the assignment. ALC's failure to provide timely notice of its willingness to accept the assignment shall be deemed a rejection of the offered assignment. The respective written notices of Grantee and ALC shall be provided in accordance with the requirements of Section 15, below. In the event that ALC is either not qualified or not willing to take assignment of Grantee's interest under the Public Access Easement, then Grantor shall have one hundred eighty (180) days following Grantee's notice to Grantor of such events within which to designate an assignee that meets each of the foregoing four qualification criteria. If Grantor is unable or chooses not to designate an assignee within such period, Grantee may proceed to assign all, but not less than all, of its interest, rights and obligations under this Public Access Easement to any entity that meets all of the foregoing designation criteria. Notwithstanding anything in this Subsection (a) to the contrary, this Public Access Easement shall not be transferred by Grantee to any governmental entity or public agency without the consent of the Grantor, which consent shall be in Grantor's sole discretion.

(b) If Grantee ever ceases to exist or no longer qualifies to hold this Public Access Easement under Section 170(h) of the U.S. Internal Revenue Code, or applicable state law, Grantor shall petition a court of competent jurisdiction to transfer this Public Access Easement to an organization that meets each of the four qualification

criteria specified in Subsection 7(a). The Parties intend that, in the selection of a transferee entity, preference be given to a qualified private non-profit organization of Grantor's choosing with the requisite experience in preserving and protecting the Conservation Values.

8. Grantor Transfer of the Public Access Easement Area. Any time Grantor transfers any ownership interest in the Public Access Easement Area, or any portion thereof, or any interest in any portion thereof, Grantor shall notify Grantee in writing prior to the transfer, and the deed of conveyance or other transfer instrument shall expressly refer to this Public Access Easement. Grantor's failure to notify Grantee or include the required reference to this Public Access Easement in the deed or other transfer instrument shall not affect the continuing validity and enforceability of this Public Access Easement.

9. Amendment of Public Access Easement. This Public Access Easement may be amended only with the written consent of Grantee and Grantor. Any amendment shall refer to this Public Access Easement and shall be recorded in the official records of San Luis Obispo County, California.

10. Grantor's Title Warranty. Grantor represents and warrants that Grantor has good fee simple title to the Public Access Easement Area, free from any and all liens or encumbrances except those liens and encumbrances shown in the preliminary title report provided to Grantee or otherwise disclosed to Grantee prior to recordation of this Public Access Easement. This Public Access Easement is subject to the Caltrans Scenic Protection Easement - Retained Lands and to the Old San Simeon Village Conservation Easement.

11. Environmental Provisions.

(a) Environmental Liabilities and Indemnification. Grantee and Grantee's successors in interest shall indemnify, protect and defend, and hold harmless the Grantor Indemnified Parties from and against any claims (including, without limitation, third party claims for personal injury or death, damage to property, or diminution in the value of property), actions, administrative proceedings (including informal proceedings), judgments, damages, punitive damages, penalties, fines, costs, liabilities (including sums paid in settlements of claims), remedial action, compliance requirements, enforcement and clean-up actions of any kind, interest or losses, attorneys' fees (including any fees and expenses incurred in enforcing this indemnity), consultant fees, and expert fees that arise directly or indirectly from or in connection with any Hazardous Substance, as defined below, released or deposited as a result of action by the Grantee, its officers, directors, members, employees, contractors, legal representatives, agents, successors and assigns, and each of them, or resulting from Public Access, on or about the Public Access Easement Area. Grantor reserves the right (but not the obligation) to retain counsel of Grantor's choice, to supplement the defense required to be provided by Grantee pursuant to this Subsection. The indemnity obligations of any successor in interest of Grantee pursuant to this Subsection 11 (a) shall be limited to the portion of the Public Access Easement Area to which the

successor takes title. Notwithstanding any statutory limitation otherwise applicable, the indemnity obligations of Grantee to the Grantor Indemnified Parties pursuant to this Subsection 11(a) shall continue after transfer to a successor in interest unless a written request for consent to assignment of such indemnity obligations to a successor in interest is approved by Grantor. In considering any such request, Grantor may take into account the financial capabilities of the successor in interest, without regard to any third party financial assurances. Grantee's request for such assignment may be denied only if there is a commercially reasonable basis for such denial.

(b) Definitions.

(1) The term "Environmental Law" shall include, but shall not be limited to, each statute named or referred to below, and all rules and regulations there under, and any other local, state and/or federal laws, ordinances, rules, regulations, orders and decrees, whether currently in existence or hereafter enacted, or common law, which govern (i) the existence, cleanup and/or remedy of contamination or pollution on property; (ii) the protection of the environment from soil, air or water contamination or pollution, or from spilled, deposited or otherwise emplaced contamination or pollution; (iii) the emission or discharge of Hazardous Substances into the environment; (iv) the control of Hazardous Substances; or (v) the use, generation, transport, treatment, removal or recovery of Hazardous Substances.

(2) The term "Release" means any spilling, leaking, pumping, pouring, emitting, emptying, discharging, injecting, escaping, leaching, dumping or disposing of any Hazardous Substance into the environment (including, without limitation, the continuing migration of Hazardous Substances into, onto or through the soil, surface water, or groundwater, and the abandonment or discarding of barrels, containers, and other receptacles containing any Hazardous Substance).

(3) The term "Hazardous Substance" shall mean (a) any oil, flammable substance, explosives, radioactive materials, hazardous wastes or substances, toxic wastes or substances or any other wastes, materials or pollutants which (i) pose a hazard to the Public Access Easement Area or to persons on or about the Public Access Easement Area or (ii) cause the Public Access Easement Area to be in violation of any Environmental Law; (b) asbestos in any form which is or could become friable, urea formaldehyde foam insulation, transformers or other equipment which contain dielectric fluid containing levels of polychlorinated biphenyls, and radon gas; (c) any chemical, material or substance defined as or included in the definition of "hazardous substances," "hazardous wastes," "hazardous materials," "extremely hazardous waste," "restricted hazardous waste," "toxic substances," or words of similar import under any applicable local, state or federal law or under the regulations adopted or publications promulgated pursuant thereto, including CERCLA, 42 USC section 9601, et seq.; the Resource Conservation and Recovery Act ("RCRA"), 42 USC section 6901, et seq.; the Hazardous Materials Transportation Act, 49 USC section 1801, et seq.; the Federal Water Pollution Control Act, 33 USC section 1251, et seq.; the California Hazardous Waste Control Law ("HWCL"), Cal. Health & Safety section 25100, et seq., Hazardous Substance Account Act ("HSAA"), Cal. Health & Safety Code section 25300,

et seq., the Porter-Cologne Water Quality Control Act (the "Porter-Cologne Act"), Cal. Water Code section 13000, et seq., the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65); Title 22 of the California Code of Regulations, Division 4, Chapter 30; and (d) any other chemical, material or substance, exposure to which is prohibited, limited or regulated by any governmental authority or may or could pose a hazard to the health and safety of the occupants of the Public Access Easement Area or the owners and/or occupants of property adjacent to or surrounding the Public Access Easement Area, or any other person coming upon the Public Access Easement Area or adjacent property.

12. Interpretation. This instrument shall be interpreted under the laws of the State of California. If any provision of this Public Access Easement, or the application thereof to any person or circumstances, is found to be invalid, the remainder of the provisions of this Public Access Easement, or the application of such provisions to persons or circumstances other than those as to which it is found to be invalid, as the case may be, shall not be affected.

13. Captions. The captions in this Public Access Easement have been inserted solely for convenience of reference and are not a part of this Public Access Easement and shall have no effect upon construction or interpretation.

14. Perpetual Duration. The Public Access Easement created by this Public Access Easement shall be a servitude running with the land in perpetuity. Every provision of this Public Access Easement that applies to Grantor and Grantee shall also apply to and be binding upon their respective agents, heirs, executors, administrators, successors and assigns.

15. Notices. Any notice, demand, request, consent, approval or communication that either Party desires or is required to give to the other shall be in writing and either served personally or sent by United States certified mail, return receipt requested, addressed as follows or such other address as either Party from time to time shall designate by written notice to the other.

To GRANTEE: DEPARTMENT OF PARKS AND RECREATION,
STATE OF CALIFORNIA
Office of Acquisition and
Real Property Services
One Capitol Mall, Suite 500
Sacramento, CA 95814

16. Condemnation. If all or any part of the Public Access Easement Area is taken by exercise of the power of eminent domain, or acquired by purchase in lieu of condemnation, so as to terminate this Public Access Easement in whole or in part, Grantor and Grantee shall act jointly to recover the full value of their respective interests in the Public Access Easement Area so taken or purchased, and all direct or incidental damages resulting therefrom. If only a portion of this Public Access Easement Area is subject to such exercise of eminent domain, the Public Access Easement shall remain in effect as to all other portions of the Public Access Easement Area.

17. Extinguishment. If circumstances arise in the future that render the purpose of this Public Access Easement impossible to accomplish, this Public Access Easement can only be terminated or extinguished, whether in whole or in part, by judicial proceedings in a court of competent jurisdiction, and the amount of the compensation to which Grantee shall be entitled from any sale, exchange, or involuntary conversion of all or any portion of the Public Access Easement Area subsequent to such termination or extinguishment, shall be determined, unless otherwise provided by applicable Federal or California law at the time, in accordance with Section 18, Valuation. Grantee shall use any proceeds received under the circumstances described in this paragraph in a manner consistent with the primary purpose of this Public Access Easement.

18. Valuation. This Public Access Easement constitutes a real property interest immediately vested in Grantee. For the purpose of Section 17, Extinguishment, the Parties stipulate that this Public Access Easement has a fair market value determined by multiplying (a) the fair market value of the Public Access Easement Area unencumbered by the Public Access Easement (minus any increase in value attributable to improvements made after the date of this Public Access Easement) by (b) the ratio of the value of the Public Access Easement to the value of the Public Access Easement Area, unencumbered by the Public Access Easement, as of the Effective Date. The values as of the Effective Date shall be those values used to calculate the deduction for federal income tax purposes allowable by reason of this Public Access Easement pursuant to Section 170(h) of the Internal Revenue Code of 1986, as amended. For the purposes of this paragraph, the ratio of the value of the Public Access Easement to the value of the Public Access Easement Area unencumbered by the Public Access Easement shall remain constant.

19. Entire Agreement. This instrument sets forth the entire agreement of the Parties with respect to the Public Access Easement and supersedes all prior discussions, negotiations or understandings relating to the Public Access Easement, all of which are herein merged.

20. Counterparts. The Parties may execute this instrument in two or more counterparts, which shall, in the aggregate, be signed by both Parties; each counterpart shall be deemed an original instrument as against any Party who has signed it.

21. Attorneys' Fees. Should proceedings be brought to enforce or interpret any of the terms of this instrument, the prevailing Party in any such proceedings shall be entitled to recover from the non-prevailing Party its costs, including reasonable attorneys' and experts' fees.

22. Permission. Whenever permission, consent or approval ("permission") is required pursuant to this Public Access Easement, such permission shall be obtained in advance and in writing signed by the Party from whom permission is to be obtained. Whether permission should be granted or denied shall be determined based upon the purposes of this Public Access Easement, and shall not be unreasonably withheld, unless consent or permission is specified in this Public Access Easement as being within the sole discretion of a Party.

23. Exhibits. The following exhibits are incorporated herein by this reference:

**Exhibit B to
Deed of Public Access Conservation Easement
And Agreement Concerning Public Access
Easement Rights**

LEGAL DESCRIPTION OF PUBLIC ACCESS EASEMENT AREA

File No. 9842, 9843 & 9844

That portion of the Rancho Piedra Blanca, in the County of San Luis Obispo, State of California, as described in the patent recorded February 20, 1878, in Book B, Page 30 of Patents, in the office of the County Recorder of said county, described as follows:

PARCEL A (Ragged Point Conservation Area)

That portion of the Parcel described in the Certificate of Compliance recorded December 20, 2001 as Document No. 2001-098847, of Official Records of San Luis Obispo County, lying Northerly of the southerly top of bank of the Arroyo that empties itself into the Pacific Ocean, said arroyo crosses through the concrete box culvert at Engineer's Station 581+17 of State Highway V-SLO-56-A (South of Breaker Point as shown on USGS 7.5 minute quadrangle map of Piedras Blancas, Calif. dated 1959); and lying generally West of the Westerly line of the right of way for said Highway as described in the deed recorded January 9, 1939 in Volume 253, Page 47, records of said County.

EXCEPTING, from the above described Parcel A, that portion lying generally North, Northwesterly and Westerly of the southerly toe of bank of the Arroyo San Carpofo and continuing along the transition to the toe of bluff bank of the ocean to the most westerly toe of bluff point that intersects a line that bears North 86° 40' West from a point in the easterly line of said right of way for State Highway V-SLO-56-A, said point being 40 feet southeasterly of the centerline Engineer's Station 666+57.83 BC for said Highway as described in said deed recorded January 9, 1939 in Volume 253, Page 47, records of said County.

PARCEL B (Pico Cove Conservation Area)

That portion of the Parcel described in the Certificate of Compliance recorded December 20, 2001 as Document No. 2001-098849, of Official Records of San Luis Obispo County, lying Southeasterly of the record Course (79) described in the deed recorded March 18, 1966 in Volume 1389, Page 719 of Official Records of San Luis Obispo County and lying generally West of the Westerly right of way of State Highway 1, as described in the deed recorded March 18, 1966 in Volume 1389, Page 719 of Official Records of San Luis Obispo County.

PARCEL C (San Simeon Point Conservation Area)

That real property commonly known as the "Whaling Fishing Tract" described in the Certificate of Compliance recorded August 14, 2002 as Document No. 2002-066312, records of said County.

MAAS: 206295v3 - 2/10/05
FATCO: 1688572 & 1687846

TOGETHER WITH that portion of the Parcel described in the Certificate of Compliance recorded August 14, 2002 as Document No. 2002-066311, of Official Records of San Luis Obispo County, lying generally Southerly, Southwesterly and Southeasterly of the Westerly right of way of State Highway V-SLO-56-A as said right of way is described in the deed recorded January 9, 1939 in Volume 253, Page 51, records of said County.

EXCEPTING from said portion of said Parcel described in the Certificate of Compliance Document No. 2002-066311, more particularly described as follows:

Commencing at the Southwest corner of Sebastian's Store, also being the Southwest corner of Lot 1 of Block A of the Town of San Simeon (an unrecorded subdivision map), shown on map filed in Book 4 of Records of Surveys at Page 66, records of said County, said point having State Plane Coordinates (NAD83) as follows:

Northing: 2,435,599.7568
Easting: 5,613,398.0458

And being North $13^{\circ}18'16''$ East 30.00 feet from a Spike and Tag "LS 5702" set in the centerline of County Road No. 3, shown on map filed in Book 83 of Records of Surveys at Page 27, records of said County, thence North $63^{\circ}41'26''$ West 2723.61 feet to the True Point of Beginning; thence

- 1) South $33^{\circ}27'43''$ East, 1599.94 feet; thence
- 2) North $50^{\circ}44'36''$ East, 129.52 feet; thence
- 3) North $55^{\circ}34'22''$ East, 320.79 feet; thence
- 4) North $72^{\circ}51'17''$ East 268.66 feet; thence
- 5) South $88^{\circ}02'48''$ East 144.92 feet; thence
- 6) South $28^{\circ}16'11''$ East 657.63 feet more or less to the mean high tide line of the Pacific Ocean; thence along the meanderings of the mean high tide line the following 16 courses:
- 7) North $77^{\circ}59'53''$ East, 199.65 feet; thence
- 8) North $74^{\circ}09'44''$ East, 214.79 feet; thence
- 9) North $73^{\circ}38'24''$ East, 149.43 feet; thence
- 10) North $70^{\circ}10'51''$ East, 195.65 feet; thence
- 11) North $82^{\circ}05'13''$ East, 210.43 feet; thence
- 12) North $75^{\circ}56'49''$ East, 157.77 feet; thence
- 13) North $86^{\circ}58'05''$ East, 95.66 feet; thence
- 14) South $78^{\circ}59'50''$ East, 116.00 feet; thence
- 15) South $53^{\circ}25'15''$ East, 11.83 feet; thence
- 16) South $80^{\circ}12'50''$ East, 109.08 feet; thence
- 17) South $81^{\circ}55'54''$ East, 108.73 feet; thence
- 18) South $84^{\circ}54'32''$ East, 82.09 feet; thence
- 19) South $44^{\circ}59'29''$ East, 92.93 feet; thence
- 20) South $54^{\circ}30'12''$ East, 97.39 feet; thence
- 21) South $81^{\circ}56'03''$ East, 144.96 feet; thence

EXHIBIT D

ACCESS PARAMETERS

Following are the Access Parameters which set forth the levels of Public Access and Public Access improvements allowed pursuant to this Public Access Easement in the several zones of the Public Access Easement Area. These Access Parameters contain recommended Public Access plans for the various zones that conceptually have been found acceptable to Grantor and Grantee as fitting within the Access Parameters ("Recommended Access Plans").

CALIFORNIA COASTAL TRAIL ACCESS PARAMETERS

(GENERAL OVERVIEW FOR ALL ZONES WITHIN PUBLIC ACCESS EASEMENT AREA)

California Coastal Trail

- The California Coastal Trail through the Public Access Easement Area is to be further defined in the Public Access Plan consistent with these Access Parameters. Controlled Public Access allowed by Grantee is subject to the below parameters:
 - Access during daylight hours only
 - No structures, parking facilities or other facilities except trail, fencing and signage
 - No fires or picnics
 - No motorized vehicles
- Siting Criteria

The California Coastal Trail is to be sited so as to maximize Public Access opportunities, while balancing natural resources. The California Coastal Trail is to avoid significant sensitive resources. Exhibits D-1-A, D-1-B, D-1-C and D-1-D consist of California Coastal Trail alignment maps which show in yellow those areas of the Public Access Easement Area which are eligible for consideration during the Public Access Plan process for location of the Coastal Trail alignment within the Public Access Easement Area.

Maintenance

- The California Coastal Trail must be designed, constructed, maintained and managed by the Grantee so as to minimize impacts to natural resources.

San Simeon Point Conservation Area Access Parameters

- In addition to Public Access through the California Coastal Trail, controlled Public Access shall be allowed as set forth in the Public Access Plan consistent with the following parameters:
 - The San Simeon Point Public Access Plan shall include a proposal for the type of controlled Public Access (including recommendations for whether controlled access is supervised or guided).
 - Controlled Public Access to accommodate 100 people per day (in addition to uses by guests at the Old San Simeon Village Inn, any other guests of the landowner, and guided tour access as described below), and managed by Grantee or a third party organization to be approved by Grantor, with any such third party organization to provide a management plan for Grantor review and approval. The Public Access Plan shall address maintenance and security.
 - Controlled Public Access allowed by Grantee is subject to the below parameters to protect resources:
 - Public Access issues to be carefully balanced with resource protection.
 - Single controlled point of access near Old San Simeon Village as per an access map to be approved by Grantor.
 - Public access shall be not less than 300 days per year, with such schedule to be established in conjunction with and approved by Grantor.
 - Access during daytime hours only (with access beginning no earlier than ½ hour after sunrise and ending no later than ½ hour before sunset).
 - Public access areas and minimal accessory structures (i.e. any covered portable toilets) permitted only as set forth in the Public Access Plan. No maintenance, residential or commercial public access buildings.
 - No picnics.
 - Restricted to designated trails.
 - No dogs or other pets allowed.
 - No alcohol.
 - No bikes or motorized vehicles.
 - No fires.
 - Guided Tours (in addition to the Controlled Public Access described above) to allow two guided tours of 20 people each to be scheduled through the State Parks Hearst Castle reservation system for

Saturday and Sundays during the period of not less than 300 days per year when Controlled Public Access is allowed.

- Grantor retains the right to conduct its own tours.
- Scientific research – Scientific research may be conducted upon request to and approval of Grantor at its sole discretion, subject to the following restrictions:
 - Research must be related to the coastal natural resources and limited to the defined area only, excluding any adjacent areas or operations.
 - Selected research organizations will provide a research plan for Grantor and Grantee review and approval.
- Educational access – Educational use is permitted upon request to and approval of Grantor at its sole discretion, and subject to the following guidelines:
 - Selected educational organizations will provide a program plan for Grantor and Grantee review and approval.
- A Recommended Access Plan for the San Simeon Point Conservation Area is attached as Exhibit D-2 to this Public Access Easement ("San Simeon Point Recommended Access Plan"). The San Simeon Point Recommended Access Plan conceptually has been found acceptable to Grantor and Grantee as fitting within the Access Parameters.

Ragged Point and Pico Cove Conservation Areas Access Parameters

- In addition to Public Access through the California Coastal Trail, guided walking tours will also be allowed as set forth in the Ragged Point and Pico Cove Public Access Plan to be further developed by Grantor and Grantee, consistent with the below parameters:
 - Guided tours to be carefully balanced with resource protection.
 - Guided tours during daytime hours only (with access beginning no earlier than ½ hour after sunrise and no ending no later than ½ hour before sunset)
 - Guided tour areas only accessible from controlled points of access as defined on Exhibits D-3-A and D-3-B.
 - Twenty-person guided walking tours will be held monthly on Sundays and will be managed and conducted by Grantee or a third party organization approved by Grantor. The organization will provide an access management plan, subject to Grantor's review and approval.
 - No public access buildings or structures.

- Scientific research – Scientific research may be conducted upon request to and approval of Grantor at its sole discretion, subject to the following restrictions:
 - Research must be related to the coastal natural resources and limited to the defined area only, excluding any adjacent areas or operations.
 - Selected research organizations will provide a research plan for Grantor and Grantee review and approval.
- Educational access – Educational use is permitted upon request to and approval of Grantor at its sole discretion, and subject to the following guidelines:
 - Selected educational organizations will provide a research plan for Grantor and Grantee review and approval.

A Recommended Access Plan for the Ragged Point and Pico Cove Conservation Areas is attached as Exhibit D-3 to this Public Access Easement ("Ragged Point/Pico Cove Recommended Access Plan"). The Ragged Point/Pico Cove Recommended Access Plan conceptually has been found acceptable to Grantor and Grantee as fitting within the Access Parameters.

Old San Simeon Village Conservation Area Access Parameters

The Public Access allowed within the Old San Simeon Village Conservation Area under the Public Access Easement is limited to siting, use and maintenance of the California Coast Trail within the area shown in Exhibit D-1-D and subject to the general California Coastal Trail Access Parameters stated above.

PUBLIC ACCESS EASEMENT

San Simeon Point

Recommended Access Plan

October 7, 2003

(updated July 8, 2004, October 15, 2004 and February 10, 2005)

Document Outline

A. Draft Recommendations for Public Access Plan

The following Plan addresses four overarching categories related to public access at San Simeon Point:

1. **San Simeon Point Management**
Recommendation 1-1: Form a Non-Profit Management Organization
Recommendation 1-2: Prepare a Management Plan
2. **Supervised/Controlled Access**
Recommendation 2-1: Limit the Number of Daily Visitors
Recommendation 2-2: Public Access Days and Hours of Operation
Recommendation 2-3: Parking/Trailhead Coordination
Recommendation 2-4: Single Point of Entry
Recommendation 2-5: Direct Visitors to Approved Destinations
Recommendation 2-6: Define Uses Allowed on the Property
Recommendation 2-7: Docent Program
Recommendation 2-8: Ranger Program
3. **Public Safety**
Recommendation 3-1: Separate Bulls from People
Recommendation 3-2: Safety Fencing and Signage (Limited)
Recommendation 3-3: Close Hazardous Trails
4. **The Visitor Experience**
Recommendation 4-1: Provide a Variety of Open Space Experiences
Recommendation 4-2: Visitor Education and Interpretive Program
Recommendation 4-3: Trail Amenities and Improvements

B. Descriptions of Recommended Trail Segments

1. **Point of Entry / Trailhead**
2. **Point of entry to the bluff overlooks at the Point**
3. **Point to West Overlook**
4. **East-West Connector**
5. **Vista Point /Return to Trailhead**

Exhibit:
Draft Recommended Access Plan Schematic (Exhibit D-2-A) (not attached)

A. Draft Recommendations for Public Access Plan

Nestled between Highway 1, grazing pastures, and the Pacific Ocean, San Simeon Point is a hidden jewel of open space previously closed to the general public, except as allowed under the Hearst consent to access (Civil Code 813). Opening San Simeon Point to visitors would allow the public to enjoy a distinctive coastal property of local and statewide importance and interest. The natural beauty and cultural significance of San Simeon Point, including the cypress forest, panoramic views of the coastline, and the site of the historic whaling station (1852-1894), could be available for visitor enjoyment and appreciation.

These Draft Recommendations for Public Access are a guide for planning to allow visitors to San Simeon Point. This proposal presents an approach to managing access that respects the property owner's commitment to preserving San Simeon Point and the public's desire to walk on the land. Key principles of the Plan are to balance public access at San Simeon Point with ongoing Hearst operations and protection of its serene beauty, tranquility, and natural resources.

The San Simeon Point trail system would provide supervised access to scenic coastal resources in a setting unique to the region. Existing trails provide sweeping views of and access to undeveloped bluffs and would offer visitors exposure to a diversity of views, scenery, micro-climates, and habitats in a beautiful and historical setting.

Access to San Simeon Point will originate near the warehouses of Old San Simeon Village from a new parking lot and trailhead. This single point of access provides connections to W.R. Hearst State Beach and the California Coastal Trail.

Note: Refer to the Draft Recommended Access Plan Schematic (Exhibit D-2-A) for photo references and trail facilities.

Goal: Provide for supervised public access at San Simeon Point for hiking and natural scenery viewing in a manner that is safe and enjoyable for visitors and without adverse change to the existing and historic nature of this special environment.

1. San Simeon Point Management

An open space this size (approximately 100 acres) with anticipated annual visitors potentially in the thousands requires an organization capable of managing and conducting regular and consistent activities related to trail construction and maintenance, docent coordination, emergency and safety issues, vegetation control, etc.

Recommendation 1-1: Potential Non-Profit Involvement

An arrangement with a non-profit organization could be undertaken to assist the easement holder in coordinating daily activities related to public access management. Typical responsibilities of the non-profit could include coordination of docents and rangers, implementation of San Simeon Point Management Plan (See Recommendation 1-2 below), public educational and research programs, trail maintenance, and vegetation management.

Recommendation 1-2: Prepare a Management Plan

Opening San Simeon Point to visitors should be preceded by preparation of a Management Plan, other than existing permissive use allowed by Hearst per Civil Code Section 813, to identify variables that may affect the intensity of use and trail construction, such as soil type, slope, vegetation types, visitor management, etc. The Management Plan should be based on ecological criteria, desires to keep the property relatively undeveloped and peaceful, anticipate and manage the number and frequency of visitors, potential impacts upon the natural environment, and the quality experience of the user. The Plan should be created by a steering committee composed of

Hearst, California Department of Parks and Recreation, the American Land Conservancy, California State Coastal Conservancy, and other selected state agencies and citizens.

2. Supervised/Controlled Access

Public access to San Simeon Point would be allowed under this Public Access Easement that allows public access over the property within defined areas. Allowing visitors at San Simeon Point requires mechanisms to ensure control where, when, and how the property is used. The overall objective of establishing supervised access is to ensure that San Simeon Point remains a tranquil, uncrowded place and is used in a manner in accordance with the Management Plan. Some areas will be off-limits to the public to avoid incompatibilities with cattle operations and potential safety or environmental issues. The public access program should: provide for the Hearst continued right to use the property for management of the land; allow protection of on-site resources; enable visitors to enjoy a serene open space environment; and allow for grazing.

Recommendation 2-1: Limit Number of Daily Visitors

In order to provide visitors with a high quality outdoor experience and to protect the integrity of the resources present on-site, the maximum number of public visitors should be limited to no more than 100 people per day (in addition to any uses by guests at the Old San Simeon Village Inn and other guests of the landowner). One method to manage the intensity of public use is to limit the amount of visitors allowed at the site at any one time. Densities may be based upon the number of docents/staff present onsite, weather conditions, special events and group visits (e.g., school field trips, organized tours, etc.), or to allow guests to experience an outing with infrequent encounters with other people. Children and adolescent visitors under the age of 16 will be accompanied by an adult.

- The Management Plan should consider implementing a trial public access period to ascertain whether the maximum daily number of visitors should be adjusted up or down based upon docents/staff availability, seasonal needs, resource protection, parking availability and usage, and other variables that may require adjustments to be made.
- The Management Plan should consider exempting school tours from daily visitor maximums.

Recommendation 2-2: Public Access Days and Hours of Operation

San Simeon Point should be available to the public no less than 300 days a year to allow other necessary uses to take place on the property (maintenance, grazing, and resource protection/restoration, Hearst operations). The Point should be open to the public an average of five to six days a week, notwithstanding periods that the property is closed for other uses. Public access should be during daytime hours only, with access beginning no earlier than ½ hour after sunrise and no later than ½ hour before sunset. In consideration of the availability of non-profit staff, hours may need to be more limited; for example, they could range from 10 to 4 during fall and winter and 9 to 6 during spring and summer.

Closed periods should be planned in advance and coordinated to provide as regular of an open schedule as possible. Vegetation management and restoration may be best performed during closed periods. Grazing will be needed to manage vegetation in public areas on the Point.

Recommendation 2-3: Parking/Trailhead Coordination

Coordinated parking and trailhead management are recommended to control visitor density (point of entry/trailhead management is discussed below). Options for managing the flow of visitors at the parking area include providing a fixed and limited number of parking spaces and establishing parking time limits. It is important to anticipate the arrival of occasional large groups to San Simeon Point by bus and the need for bus parking.

- Large group and special event staging could be shuttled in from the Hearst Castle parking lot.

Recommendation 2-4: Single Point of Entry

A single point of entry should be created to regulate the number and flow of visitors allowed on the Point at any one time. Access trails from the parking lot, California Coastal Trail (CCT), and one trail from W.R. Hearst State Beach should lead directly to a single trailhead for San Simeon Point. All visitors should depart from and return to the trailhead through a looped trail system. Trailhead controls should be coordinated with parking capacity. This Plan recommends giving preference to smaller groups and establishing a limit to the size of a single group allowed on the property through a reservation system or other means of notice. Groups over 10 persons in size should be given entrance gradually so that no one group dominates the site and intrudes upon the experiences of other visitors.

- In order to prevent unauthorized and unsupervised entry onto the property, the public area should be enclosed with transparent and attractive fencing up to this entrance. The fencing would serve to keep visitors out of the bull pasture and the bulls out of the public area (See Public Safety Recommendation 3-2, below).
- The entrance should be gated and have a docent booth and kiosk to prohibit visitor access during closed hours. (See fencing on Draft Recommended Access Plan Schematic (Exhibit D-2-A))
- There are approximately three trails from San Simeon Cove Beach that lead onto the property. Two of these trails extend into the property beyond the trailhead location and would be difficult for the general population to use and should be closed. (For location, see Draft Recommended Access Plan Schematic (Exhibit D-2-A), near the trailhead)
- The loop trail would require construction of a new trail to connect the bluff trail back to the trailhead. (See Vista Point /Return to Trailhead (Yellow/Green trail))
- The trailhead would be a good site for a kiosk that posts hours of operation, contact information, guidelines for use (allowable and prohibited activities), trail maps, onsite destinations, and other similar information. The kiosk could be attended by a docent during open hours. (See Draft Recommended Access Plan Schematic (Exhibit D-2-A))

San Simeon Cove Beach trail that should remain open

Photo #1

View of San Simeon Point beach at south end of the Point

Photo #2

Recommendation 2-5: Direct Visitors to Approved Destinations

Given the desires to protect San Simeon Point, public access should be supervised and visitors should be directed or guided to established points of interest. Visitors should be directed to follow designated trails and keep to maintained trail corridors. There should be regular docent presence at this location. If erosion becomes a problem in this area, visitors should then be directed to focal

points. To assist the visitor, trail markers should be placed at all junctions and other points where the route may be unclear. In addition, self-guiding brochures should be placed at the kiosk. In some areas, at the bluffs for instance, trail fencing may be necessary to close unsafe and/or unauthorized routes.

Recommendation 2-6: Define Allowed Public and Private Uses

When San Simeon Point is opened to the public, there will be many who want to use the property for uses that are not appropriate. As recommended in this Recommended Access Plan, public access will be controlled by regulating the days, times, means, and areas available to them. Allowable public uses should be clearly defined and posted at the trailhead and on brochures. Public uses should be limited to passive recreation including walking/hiking, photography, and sightseeing. The following uses should not be allowed on the Point by the public: bicycling, motor vehicles of any kind, camping, horseback riding, dogs/pets (other than seeing eye, service, or signal dogs), games (Frisbee, kite flying, etc.), alcohol consumption, fires, and smoking. No physical improvements other than those provided in this Public Access Easement will be allowed. There should be a "pack it in, pack it out" waste disposal policy for trails and overlook/vista points. Trash receptacles should be limited to the trailhead.

Recommendation 2-7: Docent Program

The presence of identifiable docents/ staff creates a hospitable environment for visitors, ensures visitor compliance with rules and policies, and increases visitor safety. Experience shows that visitors made aware of the presence of docents in the area will most likely follow rules and stay on trails. The docent program presents two opportunities for supervised visits. On a daily basis, a number of trained volunteers would be stationed at key points along the trail and others should roam the area acting as the "eyes and ears" for protection of the resource and public safety, and to provide interpretive education about the plants, animals, and history of the site. This would allow hikers—including many locals—to enjoy the area at their own pace: at a brisk walk, or if they wish, stopping to ask a question or to take a peek at an otter or a whale through a docent's spotting scope. Guided walks and tours may be offered on the weekends and during peak seasons. Regularly scheduled programs may help to manage the flux of daily visitors to the property. Docent walks should be limited to 10 visitors at a time and should be scheduled at 30-45 minute intervals.

Recommendation 2-8: Ranger Program

Rangers should be hired to provide back-up for the docents. Where the docents provide education and monitoring, the rangers would be the enforcement arm of the public access program. Rangers could consist of employees (or off-duty employees) of State Parks or the County Sheriff's Office trained to deal with problem people or handle threatening situations.

3. Public Safety

Although some members of the public have used the site for hiking and nature experiences in the past (under Civil Code 813), opening San Simeon Point to increased public use will require implementation of certain measures to provide public safety.

Recommendation 3-1: Separate Bulls from People

Allowing people and/or bulls unfettered access across the site may create safety problems and/or interfere with grazing operations. Currently, the bulls have use of the entire San Simeon Point from the grasslands through the forest. However, once the property is opened to the public, allowing this practice to continue may cause safety issues between the animals and humans and potentially disrupt grazing operations. Due to the size of the pasture area for bull grazing and the potential problems with a bull/human interface, the bull pasture should be fenced to separate the bulls from areas open to public access. This entails most of the forested area and also a small area at the bluff just outside the forest toward Windsurfer Beach. (See fencing on Draft Recommended Access Plan Schematic (Exhibit D-2-A).) During periods of high vegetation in the forest, the ranch manager may want to take advantage of the forested area during holiday periods, after hours, or other closed periods as described in Recommendation 2-2.

- Construct fencing to keep people out of the bull pasture and the bulls out of the forest and trail areas.
- Schedule the bulls to continue to use the forested areas when the Point is closed to the public.

Recommendation 3-2: Safety Fencing and Signage (Limited)

Some areas may require trail fencing to direct pedestrians to keep to designated trails and/or to increase public safety. Along the bluffs where the public is allowed to traverse laterally from overlook to overlook (Point to North Spur--Blue/Green Trail), trail fencing should be installed. The same fencing may be used to close trail segments that are closed for revegetation or safety reasons. When fencing is adjacent to steep cliffs, guard rails will be necessary. Simple post and rope fencing is recommended for these areas. A small number of discreet signs should be used to urge hikers to avoid dangerous cliffs or areas of fragile vegetation.

Example of dangerous bluff trail that should be closed

Photo #6

Recommendation 3-3: Close Hazardous Trails

Some existing trails should be closed; in particular, the two trails leading up from San Simeon Cove Beach (one unimproved trail near the proposed trailhead should remain open) and the trail leading to the south-facing beach at the Point is difficult to navigate and would be a difficult route for many visitors. If this beach is to be designated accessible, significant improvements to the trail should be made. Other trails that may need to be revegetated and closed are those between bluff overlooks on the west facing bluff that are not indicated on this recommended plan for public access.

4. The Visitor Experience

While public access at San Simeon Point will be supervised and controlled to some extent, "control" should not be the dominant impression of visitors. It is important that the serene beauty and distinctive environment at San Simeon Point are the principal qualities perceived, enjoyed, and remembered. To that end, the public should have access to assorted natural settings with an appropriate level of improvements that guide, protect, and educate.

Recommendation 4-1: Provide a Variety of Open Space Experiences

Much of the appeal of San Simeon Point is the diversity of natural experiences that can be enjoyed. The Public Access Plan should include and perhaps emphasize opportunities to experience coastal forest walks, bluff overlooks, Castle and other long range views, ocean, and beach views. Trail access with like experiences should be available to individuals in wheelchairs. Natural and cultural history should also be highlighted aspects of the experience at San Simeon Point. Exceptional vista areas should be formalized as destination points at the terminus of the Point, other blufftop overlooks, and at or near the "bench mark" to provide the opportunity for visitors to catch spectacular views.

Recommendation 4-2: Visitor Education and Interpretive Program

Education is the best tool for fostering stewardship and respect. Bring the experience at San Simeon Point full circle with interpretive displays that teach people about wildlife, plants, and the natural and cultural history of the Ranch. Through the use of a brochure, self-guided tours could include information on interesting sites, stories, and lore. On weekends and open holidays, visitors might take advantage of docent-led tours. One idea is to take reservations for these special tours and stage them from the Hearst Castle Visitor Center (coordinated with trailhead management). Consistent with the other parameters for public access to San Simeon Point, two such guided tours each weekend day, including up to 20 people each, could be scheduled. There could also be themed visits such as Whaling Days or Marine Mammals. A trailhead kiosk could post hours of operation, contact information, guidelines for use (allowable and prohibited activities), trail maps, onsite destinations, and other similar information.

**Deer on proposed forest trail
Photo #7**

**Castle View from Vista Point
Photo #8**

Recommendation 4-3: Trail Amenities and Improvements

San Simeon Point should generally remain in the current state with limited improvements that protect the natural environment, educate, provide public safety and security, and provide comfort. The open character of San Simeon Point should be retained as much as possible. Some improvements, such as small interpretive signs, trails signs, parking, and possibly a restroom should be provided to ensure access to a broad community. The visitor center should include restrooms and drinking water. An alternative location for restrooms could be near the parking lot in a discreet building in the same architectural style as the Julia Morgan buildings of Old San Simeon Village. Prominent vista areas such as the Point and the Vista at the benchmark should be accompanied by the sensitive placement of benches and interpretive signage.

**View to the Parking Area
near Warehouses
Photo # 9**

B. Descriptions of Recommended Trail Segments

Note: Refer to the Draft Recommended Access Plan Schematic (Exhibit D-2-A) for photo references and trail facilities.

Point of Entry / Trailhead (*)

The trailhead to the San Simeon Point Coastal Trail will commence at the beginning of the forest adjacent to the bluff overlooking the beach at San Simeon Bay. There would be two main feeders into the trailhead: from the parking lot in the Old San Simeon Village area and from the trail up from San Simeon Cove Beach. The trailhead should be attended by a docent/ranger who controls the flow of visitors so that no more than 25 people are within the boundary of the public area at one time.

Point of Entry to the Point (Pink/Green trail)

It is anticipated that most visitors will want to walk through the forested areas to the scenic overlooks at the ocean bluffs. The hiking trail will mostly follow the existing dirt path along the bluff but with some improvements. As appropriate along the way, the trail might consist of a gravel pathway or boardwalks bounded by post and rope fencing, guardrail or native vegetation to encourage visitors to stay on the designated track. A small number of discreet signs would urge hikers to avoid dangerous cliffs or areas of fragile vegetation. The two existing unimproved trails to/from the beach should be closed as they enter the public area beyond the trailhead, are not readily usable by the average visitor, and may be unsafe. One trail to the beach at the point prior to the trailhead should remain open.

At the Point area, visitors will likely want to roam, stopping to look over the numerous vista points. This would be a good location for docents to mill about to answer questions and monitor trails.

The Point to West Overlook (Blue/Green trail)

The trail along this area follows the existing dirt path under the trees. There are a few trail spurs that extend from this trail toward the ocean that offer stunning views out over the ocean and of the rocky bluffs. A few of these should be retained as vista/overlooks. Others are recommended to be revegetated and closed (See Draft Recommended Access Plan Schematic (Exhibit D-2-A)). If hikers wish to walk outside the forest canopy, a short length of trail traverses the bluff line to connect three of the overlooks. Some bluff fencing may be necessary for safety purposes.

This Plan recommends ending the trail just beyond the edge of the forest and the creation of an overlook that takes advantage of the dramatic views north to the adjacent

Trail from entry point to bluffs
Photo #10

Trail to West Overlook through forest
Photo #11

View of the Point from
West Overlook
Photo #12

beach and Piedras Blancas Lighthouse and views south of the rocky shore along the Point.

East-West Connector (Orange/Green trail)

Mid-way to the end of the forest, hikers would have an option to traverse through the forest to return to the trailhead along a winding trail characterized by woody debris and mildly rugged terrain. This trail offers an alternative, quieter hiking experience than the bluff trails.

Vista Point /Return to Trailhead (Yellow/Green trail)

To return to the trailhead, the route would lead to the "benchmark" where extraordinary views may be seen over the ocean and back toward the Castle. The vista point at this spot should be made a formalized destination with a viewing area and a few amenities such as benches and interpretive exhibits. This trail would then merge with the existing dirt road for a convenient way back to the trailhead.

(updated July 8, 2004, October 15, 2004 and February 10, 2005)

Document Outline

A. Draft Recommendations for Public Access Plan

The following Plan addresses four overarching categories related to public access at Ragged Point and Pico Cove:

1. **Ragged Point and Pico Cove Management**
Recommendation 1-1: Consolidate Management of Easement Areas
Recommendation 1-2: Include Ragged Point and Pico Cove in Management Plan
2. **Supervised/Controlled Access**
Recommendation 2-1: Parking / Trailhead Coordination
Recommendation 2-2: Periodic Access / Visitor Density
Recommendation 2-3: Additional Docent Controls
Recommendation 2-4: Deter Unauthorized Access
Recommendation 2-5: Define Allowable Public and Private Uses
3. **Public Safety**
Recommendation 3-1: Safety Information
Recommendation 3-2: Bluff Trail Safety
Recommendation 3-3: Separate Bulls from People
Recommendation 3-4: Improve Trail to Beach at Ragged Point
4. **The Visitor Experience**
Recommendation 4-1: Emphasize Unique Experiences of Different Tours
Recommendation 4-2: Visitor Education and Interpretive Program
Recommendation 4-3: Trail Amenities and Improvements
Recommendation 4-4: Comfort Stations

B. Descriptions of Recommended Trail Segments

Ragged Point

Site Access: Turn-out / Drop-offs
Trail 1: North Trailhead to Bluff
 Alternative Trail: South Bluff Trail
Trail 2: South Trailhead to Beach
Trail 3: Beach Trail
Trail 4: Coast Ranch Trail
 Alternative Trail: Return to Coastal Trail

Pico Cove

Site Access: Turn-out / Drop-off
Trail 1: Pico Cove North Bluff Trail
Trail 2: Pico Cove South Loop Trail

Exhibits:

Recommended Access Plan Pico Cove Schematic (Exhibit D-3-A) (not attached)
Recommended Access Plan Ragged Point Schematic (Exhibit D-3-B) (not attached)

A. Draft Recommendations for Public Access Plan

Ragged Point and Pico Cove are open space areas that offer diverse hiking and viewing experiences in undeveloped seaside settings with panoramic views. In recognition of the continued ownership and operations of these properties, access areas will be open to the public on a limited basis via small, guided groups as provided under the terms of this Public Access Easement.

Note: Refer to the Recommended Access Plan Pico Cove Schematic (Exhibit D-3-A) and the Recommended Access Plan Ragged Point Schematic (Exhibit D-3-B) for photo references and trail facilities.

1. Ragged Point and Pico Cove Management

Unlike San Simeon Point, these agricultural and open space lands will not be open to daily visitor access, but will be open for docent-led tours every month. Given that Ragged Point and Pico Cove will not assume the level of regular public access as San Simeon Point, the level of management activity will be less. Even so, both sites will have occasional visitor tours that will need to be organized and led and will need some regular maintenance such as vegetation control around the trails and fence repair.

Recommendation 1-1: Consolidate Management of Easement Areas

One management organization should be considered for public access management for the three easement areas: San Simeon Point, Ragged Point, and Pico Cove. This organization would be a single point of contact for the three sites and would administer similar tasks such as docent and volunteer coordination, vegetation management, trail maintenance, coordination of grazing activities with property owner, etc. (Refer to Recommendation 1-1, San Simeon Point Recommended Access Plan)

Recommendation 1-2: Include Ragged Point and Pico Cove in Management Plan

These Draft Recommendations for Ragged Point and Pico Cove should augment the Draft Recommendations for San Simeon Point Public Access Plan. Categories of topics herein parallel that Plan and many Recommendations dovetail with San Simeon Point's. The final Recommendations should be considered for consolidation into a single plan to cover all three public access easement areas.

2. Supervised / Controlled Access

Public access at Ragged Point and Pico Cove will be allowed through defined areas under this Public Access Easement that requires docent supervision and guidance. Both sites will have two types of trails on the properties: the multi-use Coastal Trail adjacent to Highway One and outside the property fence that is available year-round for general public use and docent trails within the property fence that will be open periodically on pre-scheduled dates. Access recommendations focus on the docent-led trails. In some areas, the Coastal multi-use trail provides connection between docent areas.

Recommendation 2-1: Parking / Trailhead Coordination

Providing public access to Ragged Point and Pico Cove requires different logistical planning than San Simeon Point. These sites are isolated from major visitor areas and none of the proposed roadside trailheads are situated where they can safely accommodate visitor parking. This Draft Recommendation proposes that a shuttle service be implemented to transport visitors to trailheads from a nearby location where parking is available and convenient. The Visitor Center at San Simeon Point (at the Warehouse) would be a good location because it is central to the two sites and would be a logical meeting area. At the trailheads where sufficient space for turn-outs / shuttle drop-offs is not already available roadside, off-road drop-off areas that may accommodate

one or two 15 passenger vans should be created behind the property fence (and served by a locked gate).

Recommendation 2-2: Periodic Access / Visitor Density

Trails at Ragged Point and Pico Cove will not be open to the public most times of the year but will be allowed only via pre-scheduled docent-guided tours. Tours should be offered monthly on Sundays by advance registration, and occasionally for special programs such as school field trips and scientific research programs. Visitor density should be limited to a maximum of 20 per scheduled day. Group sizes should be determined in consideration of the distance to be covered, the terrain, and potential safety concerns and should be no larger than 20 people per docent. If more than one group is planned for a single day, group entry should be staggered so that the sense of seclusion is maintained. Children should remain with parents at all times to avoid potential safety issues and those under age 18 should be accompanied by an adult guardian. Since the pastures within the Ragged Point Conservation Area will continue to be used for agricultural operations (grazing), public visits should be scheduled to avoid potential compatibility problems with cattle or other agriculture concerns.

Recommendation 2-3: Additional Docent Controls

It may be useful to have two docents per group. The second docent could "sweep" behind groups for stragglers and/or provide escort back to the trailhead should it be necessary (in case of emergency, need to use sanitary facilities (attached to the van), etc.). This measure would help to ensure that visitors are attended throughout the hike and that contingencies are accommodated safely and conveniently.

Recommendation 2-4: Deter Unauthorized Access

Given the fact that Ragged Point and Pico Cove will not have regular tours and that some members of the public are likely to continue to enter the properties unauthorized, the properties should be monitored / patrolled to deter and control trespassing. A monitoring program should be developed as part of the overall Management Plan and may involve coordination with the local Sheriff or Highway Patrol for enforcement. Docent / volunteer patrols could also use site visits to monitor the need for fence repairs (due to cattle and trespassers) and vegetation overgrowth at the trails.

Cut barbed wire at
South Trailhead.
Photo 1

Recommendation 2-5: Define Allowable Public Uses

As recommended in this Draft Public Access Plan, public access will be controlled by regulating the days, times, means, and areas available. Allowable public uses should be clearly defined by docents prior to the walks. Public uses should be limited to passive recreation including walking/hiking, landscape painting, photography, and sightseeing. The following uses should not be allowed by the public: bicycling, picnicking, motor vehicles of any kind, camping, horseback riding, dogs/pets (other than seeing eye, service, or signal dogs), games (Frisbee, kite flying, etc.), alcohol consumption, fires, and smoking. No physical improvements other than those provided in this Public Access Easement will be allowed. There should be a "pack it in, pack it out" waste disposal policy for trails and overlook/vista points. If provided, trash receptacles should be limited to the docent vans at the trailheads.

3. **Public Safety**

Although Ragged Point and Pico Cove will be open to the public on a limited basis with the accompaniment of docent guides, there remain certain tasks to ensure safe use of the property during open periods.

Recommendation 3-1: Safety Information

In order to keep the landscape uncluttered, safety signage is not proposed in the Ragged Point and Pico Cove Conservation Areas, so before visitors arrive at either of these sites visitors should be advised of potential safety issues. For example, many trails are very close to bluff edges and visitors should be advised of the need to stay back from them. Other safety concerns could include the presence of poison oak, safety near Highway 1 traffic lanes, or other conditions as they may warrant.

Recommendation 3-2: Bluff Trail Safety

Both Ragged Point and Pico Cove are proposed to have trails alongside the bluffs. The more hazardous trails should be relocated away from the bluff to prevent related bluff erosion and falling. Simple post and rope fencing should be installed in these areas to keep people away from hazardous bluff edges. Guardrails may be required in some cases. Docents should also advise hikers of the potential dangers near bluffs.

**Bluff trail safety should be emphasized near edges.
Photo 2**

Recommendation 3-3: Separate Bulls from People

Ragged Point will be used for grazing at the rangeland south of Arroyo Hondo. Public access trips should be scheduled to prevent use conflicts and potential incompatibilities with grazing operations. If grazing is expected to occur year-round (irrigated pasture), transparent fencing should be installed to separate cattle and hikers.

Recommendation 3-4: Improve Trail to Beach at Ragged Point

Currently, the trail from Ragged Point to the beach (Ragged Point Trail 4: Coastal Trail to Beach Trail) is very narrow and has poison oak encroaching. Before Ragged Point is opened to the public, vegetation should be thinned or trimmed to make this trail wider so that it is conveniently and safely accessible to the general public. Ongoing vegetation and trail management should be included in the Management Plan.

**Narrow trail to beach (Trail 4) with dense vegetation.
Photo 3**

4. Visitor Experience

Even though all three Hearst properties that are subject to this Public Access Easement with provisions for public access have exceptional scenic attributes, the outdoor experiences offered by Ragged Point and Pico Cove differ from each other and from those at San Simeon Point. These sites will also differ from San Simeon Point because— from start to finish—experiences at Ragged Point and Pico Cove will be structured: visitors will arrive and depart by shuttle and hikes will be entirely docent-led.

Recommendation 4-1: Emphasize Unique Experiences of Different Tours

Ragged Point and Pico Cove trails offer different visitor experiences that should be emphasized in tour literature and announcements. The intrinsic qualities of each site as well as topics covered in docent lectures (e.g., coastal habitats, cultural history, etc.) may be developed to offer distinctive tours for each site. For instance, the landscape at Ragged Point is more rugged and, due to its remoteness and the pine forest canopies, it evokes a sense of isolation or seclusion. Ragged Point also has a maze of winding paths that lead through the trees, which creates a nice covered loop path. The South Ragged Point area (generally around the Arroyo Hondo area) will offer the beach trail and coast ranch trail; hikes here may last up to a couple hours. While Pico Cove is not as remote as Ragged Point (being closer to the village of San Simeon Acres and Hearst Castle), the site is relatively natural and semi-secluded, with dense vegetation and little evidence of previous use or other people (single track trail). Pico Cove also offers the best marine wildlife viewing (Harbor seals, otters, etc.) opportunities.

Hiking distances and durations should also be emphasized features. Visitors could then select the tour that most closely matches their interests and abilities. Programs for both sites will need to examine any applicable Americans with Disabilities Act (ADA) requirements.

Recommendation 4-2: Visitor Education and Interpretive Program

Since all visitors will be accompanied by docent guides, the interpretive program should rely on verbal communication rather than signage. Information on facilities, refreshments, and the intensity and duration of hikes should be communicated at the reservation time and when the tour is advertised. The docent program may be tailored to particular sites, trail reaches, seasons, or other special interest. Docent tours should begin at the shuttle pick up location with instructions on trail etiquette, safety, available facilities, and refreshments. Interpretive information should continue en route to the site and throughout the course of the tour as relevant. Topics could include local culture, the marine environment, wildlife, natural habitats, etc. A docent education program should be developed to provide a consistent base

**Example of one of the many Ragged Point trails that meander the site.
Photo 4**

**Descending the bluff to the beach (Trail 4). Note the dense vegetation.
Photo 5**

**One of the many heavily shaded forest trails.
Photo 6**

level of knowledge among docents. Local academics, historians, or long-time residents may be good sources of information for such a program.

Recommendation 4-3: Trail Amenities and Improvements

Ragged Point and Pico Cove should remain close to their current state with limited improvements, other than those necessary to keep the trails open and safe. These areas are located in remote locations and much of the beauty of the area may be attributable to the noticeable absence of material improvements such as signs, benches, and buildings. There should be no trash cans at either Ragged Point or Pico Cove and a "pack it in, pack it out" policy adhered to. Permanent structures, other than those enumerated in this Public Access Easement, are not allowed. The only parking areas serving the sites should be off-road parking for shuttle vans located near trailheads that are secured behind the property fence with a gate. Parking areas should be non-paved. Signage should be limited to those directing people to the San Simeon Point Visitor Center (Warehouse) and Private Property/Passage with Permission.

Recommendation 4-4: Comfort Stations

Given that there will be no restrooms constructed at the properties, portable accommodations should be considered. For example, docent vans could pull a trailered porta-potty for sanitary purposes. Since the van would be parked at the trailhead, this convenience would be readily accessible both before and after trail hikes, and with docent escort (with a two-docent system in place), during excursions as well.

B. Trail Descriptions

Note: Refer to the Recommended Access Plan Pico Cove Schematic (Exhibit D-3-A) and the Recommended Access Plan Ragged Point Schematic (Exhibit D-3-B) for photo references and trail facilities. Descriptions follow north to south.

Ragged Point

The proposed public access areas on Ragged Point are large enough to accommodate more than one tour route. Many visitors may not be able to cover the distance offered by all the trails, which could take several hours if attempted. The absence of convenient sanitary facilities is another reason to offer alternative tours. This Draft Public Access Plan recommends offering docent tours of varying lengths and durations at Ragged Point. Shorter trail reaches could be combined with each other to form longer hikes or focus on smaller areas if shorter programs are desirable. The northern half of Ragged Point (from North Trailhead down to the South Trailhead near Arroyo Hondo) would provide experiences of pine forest, bluff trails, and views over San Carpoforo Beach, and sweeping views of the North Coast. The southern half would include the beach trail, open rangeland, and bluff trails with dramatic views of the rocky coves and shoreline. The South Trailhead could be used to facilitate hikes of varying lengths and durations going north or south. Tours would need to be coordinated with use of the grazing pastures (at Ragged Point proper and south of Arroyo Hondo).

Site Access: Turn-out / Drop-offs (✳)

Docent-led groups will access the Ragged Point via a shuttle drop-off established North and South Trailheads at Highway 1. The drop-offs should be fenced and gated to prevent unauthorized parking and camping.

Trail 1: North Trailhead to Bluff (Pink/Green trail)

The North Trailhead should be located near the existing small turnout/proposed shuttle drop-off along Highway 1, about a quarter mile south of San Carpoforo Creek. Visitors would be dropped off behind the fence line and begin their walk on the existing footpath. This trail is relatively easy to walk and meanders under and through the pine forest windrows and ending at a grassy bluff overlook. (Docents may want to take hikers through the maze of forest trails (blue dashed trails) for an extended forest experience.) The bluff overlook (unimproved) would be a good place for docents to stop and allow visitors to rest and take in the impressive views to the north and south. Simple post and rope fencing should be installed here to keep people away from the hazardous bluff edges.

Alternative Trail: South Bluff Trail (Red dashed trail)

South of the bluff overlook is an area that may be considered for another trail segment leading to the bluffs; however, this area has extensive vegetation including poison oak and no existing

North Trailhead. A drop-off area is proposed for the area behind the fence.

Photo 7

Trail from North Trailhead to the pine forest.

Photo 8

Forest trail near south facing bluffs with dense poison oak.

Photo 9

path was found through it. If additional viewing areas are desired, this trail could be cleared and a new trail created from Trail 1. The trail should follow the bluffs, taking care to remain ample distance from the bluff edge. A bluff overlook (unimproved) may be desired to capture southward views. The trail should reenter the forest at the first row of pines closest to the ocean. There is an existing forest trail that dead ends in this general area that can create a feasible trail connection to this trail.

Trail 2: South Trailhead to Beach (♣, Blue, / Green Trail)

This route connects the proposed multi-use Coastal Trail at the South Trailhead to the beach. This trail could be a stand-alone route for those hikers who prefer a shorter hiking excursion. Trail 2 is a single track trail through dense vegetation. Hikers should be advised that, as the trail approaches the beach, it becomes steep in some places. Vegetation control for this area should be covered in the Management Plan. Prior to group hikes, vegetation should be trimmed as necessary to facilitate easier passage. The trail down to the beach is relatively easy for the average hiker and would require only minimum maintenance to maintain its usability.

Trail 3: Beach Trail (Yellow / Green Trail)

This trail allows docent-led groups to walk in the sand along the length of the beach in either direction or both, depending on the group's time constraints and interest. The beach is fairly wide in most places and is easy to walk. Hikers may be interested in scrambling over the rocky outcropping at the southernmost end of the beach to a small pristine cove (depending on the tides). The return route back follows the same path (Trail 2) taken to the beach.

Trail 4: Coast Ranch Trail

Continuing south from the South Trailhead, Trail 4 follows the proposed multi-use Coastal Trail. The Coastal Trail parallels the property fence and in one place comes very close to Highway 1. Hikers will need to walk on the highway shoulder across Arroyo Hondo. On the other side of Arroyo Hondo, the Coastal Trail joins the Coast Ranch Trail, which heads toward the ocean and turns south at the bluff overlook. The route passes mostly through rangeland, is highly scenic, and is a relatively easy hike. Hikers could return to the shuttle pull-out back at the Beach Trail by heading back along the bluff the way they came or via an alternate route (purple dashed trail) that could connect to the Coastal Trail (multi-use); hikers would exit through a locked gate and then head north.

Trail 2 heading from South Trailhead to the beach.
Photo 10

End of Trail 2, meeting the Beach Trail (open sand).
Photo 11

Pico Cove

Pico Cove is a relatively small coastal bluff property compared to Ragged Point and San Simeon Point. Trails at Pico Cove offer scenic views of rocky bluffs that surround a small sheltered cove. Sea life such as otters, Harbor seals, and sea lions are often present. The entire Pico Cove site may be walked in a short amount of time.

Site Access: Turn-out / Drop-off (✳)

Docent-led groups will access the Pico Cove trailhead via a shuttle drop-off established either at the Pico Cove Trailhead at Highway 1. The drop off should be fenced and gated to prevent unauthorized parking and camping.

Trail 1: Pico Cove North Bluff Trail (Pink / Green trail)

This trail departs from the trailhead and heads north along the bluff to a rocky vista point. At the vista point, hikers can enjoy southward views of Pico Cove as well as views of the shoreline to the north. The return route follows the same trail back to the trailhead and South Loop Trail.

Trail 2: Pico Cove South Loop Trail (Blue / Green trail)

The loop trail departs at the Highway 1/Pico Cove Trailhead and follows the single-track footpath traveling south along the bluff with panoramic views of Pico Cove, north and south shorelines, and the open ocean. Opportunities for groups to take in views or to hear docent talks could occur all along the proposed trail, but would be particularly enjoyable at sites overlooking the ocean and cove. In many places, the trail is very close to the edge of bluff; docents should make sure to advise hikers of the risks of walking too close to the bluff. If necessary, rope and pole fencing should be installed to keep people away from particularly hazardous areas. The loop trail circles back toward the trailhead through dense coastal chaparral. Once back at the trailhead, hikers may choose to continue along the Pico Cove North Bluff Trail.

CERTIFICATE OF ACCEPTANCE

Agency	Department of Parks and Recreation
Project	William Randolph Hearst Memorial State Beach/Hearst Ranch
Agency Parcel	DPR Parcel No.: 8134/DGS Parcel No. 10257
A.P.N.	Multiple

This is to certify that, pursuant to Sections 15853 and 27281 of the California Government Code, the interest in real property conveyed by the Deed of Public Access Conservation Easement and Agreement Concerning Public Access Easement Rights dated February , 2005, from HEARST HOLDINGS, INC., a Delaware corporation, to the STATE OF CALIFORNIA, acting on behalf of the Department of Parks and Recreation of the State of California, is hereby accepted by the undersigned officer of the State Public Works Board pursuant to authority conferred by resolution of said Board duly adopted November 10, 2004 and the Grantee consents to the recordation thereof by its duly authorized officer.

Note to Recorder: If this certificate is for a correction deed, all corrections and/or changes to the previously recorded deed of trust must be reviewed and accepted by the State prior to recording a correction deed. All correction deeds require a new Certificate of Acceptance dated subsequent to recordation of the original deed or the most recent correction deed, if any.
